We are always schooled to believe there is a pill for every ill. It's just a myth if you think so. Let's re-educate ourselves by uniting our body with nature and soul through YOGA.

Nation building starts at home. We can only lead by example. First let's cleanse ourselves of all the weaknesses and then see how things start falling in place.

"Sri Ramakrishna Seva Samithi, Bapatla is offering free online yoga classes. Make this summer an opportunity to dive into the ocean of eternal bliss by making yourself physically fit and mentally strong."

We also offer yoga demonstrator and instructor courses. Kindly go through our website for more details on Yoga: www.unworldliness.org

Many of you are already contributing to the activities of the Samithi. All the programmes are being conducted smoothly because of your munificence.

However, we request that, all those who know the Samithi and its activities should contribute regularly as all the expenses are rising.

Like an ocean is filled up drop by drop, whatever little donation you make would go a long way in furthering the man-making ideal of the Samithi. Hence, I request you to contribute on a monthly basis - It may just be a hundred rupees to begin with.

It is said that, for a good cause, one should give away with one hand even before the other hand comes to know of it!

> Yours in service of the Lord, Amirapu Natarajan, Secretary.
